

Poster Presentation Guidelines

■ Poster Venue, Poster Number, and Discussion Time

Poster presentations will be held in two poster venues. Detailed information regarding the venue assignment, poster number, and poster presentation/discussion schedule will be provided in the final program. Please check the program for your assigned poster number and presentation schedule.

■ Poster Format

- Posters must be prepared in English.
- An A0-size poster in portrait orientation is recommended.
- Due to the size limitations of the poster boards, posters must fit within 180 cm (height) × 90 cm (width).
- Please ensure that the title, author names, and affiliations are clearly displayed on the poster. The presenting author should be clearly indicated (e.g., with a circle ○ or an asterisk *).
- Poster numbers will be prepared and displayed by the conference secretariat on the poster boards. Therefore, there is no need to include the poster number on your poster.
- Please use a legible typeface and font size to ensure readability.
- It is recommended that you include contact information (e.g., email address or QR code) so that attendees may contact you after the meeting.

■ Presentation Style: Lightning Poster Presentation

All presenters are required to be present at their posters during their assigned lightning session. The detailed schedule will be announced separately. The lightning presentations will be organized by scientific category and conducted simultaneously in several groups. Each presenter will give a brief introduction to their work at their poster, guided by designated Navigators who will lead attendees through the poster area. Attendees who wish to listen to the lightning presentations are encouraged to join one of the Navigator-led groups on site. Meeting points and schedules will be announced separately. No advance registration is required. Following the lightning presentations, participants are welcome to continue discussions and networking during the regular poster session.

ACGG2026 Joint AGS

15th Asian Community of Glycoscience and Glycotechnology (ACGG) Conference
and 7th Australasian Glycoscience Symposium (AGS)
October 3–6, 2026

Format

Duration: 2 minutes per presentation

Location: In front of your poster

Presentation materials: Your poster only (no additional slides)

Young Scientist Poster Presentation Award Evaluation

Lightning presentations will be included in the evaluation process for the Young Scientist Poster Presentation Award. Presenters are therefore encouraged to prepare a concise and engaging overview of their work for the lightning session. Presenters who wish to be considered for the award should attach an award-entry sticker to their poster board. Stickers will be distributed on the day of the event.

■ Poster Setup

Poster boards will be labeled with the corresponding poster numbers. Presenters may mount their posters on the assigned boards in the morning on the day of their presentation. Posters must be mounted before the start of the presenters' assigned poster sessions. As posters will be replaced each day, please do not mount your poster on the day before your scheduled presentation. Pushpins for mounting posters will be provided by the conference secretariat and should be used for poster display.

■ Poster Removal

The display period for each poster is one day only. Please remove your poster after the end of your assigned poster session (Day2, Oct. 4: Session 1 and 2; Day 3, Oct. 5: Sessions 3, 4, and 5). Any posters remaining after the poster session time may be removed by conference staff. Please note that posters collected by staff may not be stored or returned.

We look forward to your participation and to a lively and successful ACGG poster session!
