

PbZn 2026

Hosted by The Mining and Materials Processing Institute of Japan (MMIJ)

November 1-6, 2026 Sendai International Center (Sendai-city, Japan)

Co-organizer: The Minerals, Metals & Materials Society (TMS), Metallurgy and Materials Society (MetSoc),

Gesellschaft der Metallurgen und Bergleute e. V. (GDMB), The Nonferrous Metals Society of China (NFSoc)

Sponsorship Opportunities

We would like to express our sincere gratitude for your continued support of the Mining and Materials Processing Institute of Japan (MMIJ).

The 11th International Symposium on Lead and Zinc Processing 2026 (Lead-Zinc 2026) aims to serve as a global platform for the comprehensive exchange of advancements in lead and zinc processing technologies, as well as to unite corporate engineers, on-site operating managers, university researchers, and other professionals to facilitate the sharing of diverse technical and academic insights related to lead and zinc processing methodologies. Prior to the general presentations, the international symposium will feature plenary lectures by leading experts to give a highly specialized and useful technical contents. Additionally, a tour of lead and zinc smelters in the Tohoku and other regions will be held after symposium.

Regarding sponsorship and advertising, we would like to ask for your support not only from non-ferrous smelting companies who have cooperated with the committee members, but also from companies that have not participated in the Lead-Zinc International Symposium or other academic conferences hosted by MMIJ. We would like to ask for your support for the **Lead-Zinc 2026** from companies related to iron and steel, electric furnaces, secondary lead and zinc smelting, metal recycling, plating processing, environmental businesses, metal product manufacturing, etc.

Lead-Zinc 2026 Executive Committee Chairman

Etsuro Shibata

Benefits of Sponsorship

There are two types of sponsorship: Gold and Silver. The types of sponsorship and their respective benefits and prices are shown in Table . The sponsorship application method is also described. Please check the details and consider applying. Thank you.
